Dear M. Camargo,

I spoke to Anthony de Kerdrel this week and he told me that you would be prepared to show at Axiom. Obviously this will need more detailed discussion but may I say now that we would be delighted to give you a one man exhibition here. This year we are already committed (although there might possibly be an opportunity in either October or November). To be absolutely certain I would like to suggest March 1968; however I do not know how this would fit in with your plans when you feel a London exhibition would best suit you.

For the moment though can I say how much we would like to exhibit your work and that I hope that we shall arrive at an amicable arrangement.

I look forward to hearing your opinions.

Yours sincerely,
