Letraset *instant lettering*

INTERNATIONAL TYPECHART

We have decided to present the entire Instant Lettering type range selling throughout the world because we have received so many requests for sheets in foreign letter frequencies by customers in this country, for setting up sales promotional material for export. This means that some of the sheets are only available in foreign letter frequencies but are quite suitable for use in this country as the actual letter frequencies are very slight and accents, etc. can be ignored when the sheet is used. *For wall reference we will be happy to supply another copy.*

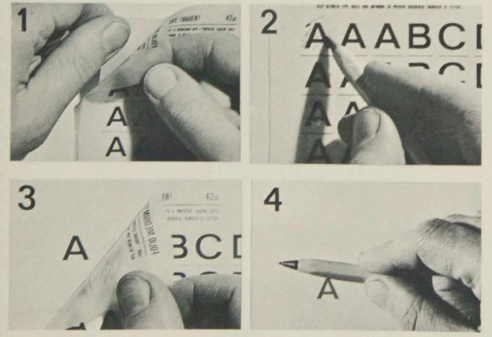

The contents of each sheet is shown by this simple code

key	
■ capitals	display sheets
□ lower case	② two sheets per set
■ numerals	③ three sheets per set
■ capitals/numerals	④ four sheets per set
■ capitals/lower case	⑤ five sheets per set
■ capitals/lower case/numerals	● available in red/blue/yellow

Typefaces are arranged in alphabetical order

How to use letraset

1 Remove protective blue backing paper. 2 Select a letter and position it by registering the printed guide line with either a ruled line on your art surface or on the edge of the protective backing sheet. Shade right across the letter from top to bottom with a ball pen using moderate pressure and taking care not to press on any other letter with your pen or hand. 3 Lift away Instant Lettering sheet slowly. 4 Place the protective backing sheet over the complete setting and thoroughly burnish with the side of a pen or similar object.

Spray 101 for perfect dye-line reproduction

all sheets can be used for perfect dye-line reproduction by using '101'. Protective Spray, 6 oz. can 7/6d.

Letraset instant lettering is available in Greek and Hebrew
