March 14th 1984

Ms. Lucia Montano de Sandoval,
Assistant Director,
Museo de Arte Moderno de Bogota,
Calle 26 N°6-05
Bogota,
COLOMBIA

Dear Ms. Montano de Sandoval,

Ref.: Sergio de Camargo
exhibition.

Thank you for your letter following our telex of January 10th regarding the above mentioned exhibition.

We have telexed you the number of sculptures that we have here in London and I enclose an itemised list with for most of them the three dimensions to enable you to visualise the volume of each piece.

We also have asked Sergio de Camargo to telephone us and we will ask him to send to you catalogues and photographs direct from Rio de Janeiro. No doubt it will be faster than from London.

As we are already mid-March, if you plan the exhibition for June we should start looking for boats and information about sailing and in fact this is just what I have done :

boats leave for Colombia every three weeks and are at sea for 21 days. There is a boat on the 16th of March, therefore the consignment should leave in April and the first April boat would have been better as Easter interfears before the sailing of the 2nd one and it might delay it for loading or unloading. We strongly recommend the 6th of April boat.

Regarding the insurance valuations you must get in touch with the artist himself, as we already mentioned it in our telex.

Yours sincerely,

Gimpel Fils.
