Dear Sergio,

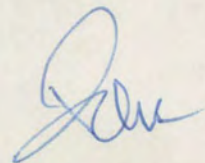

I have written to the gallery in New York and to the Zurich gallery to ask them if, in principle, they would wish to have eventually another exhibition of your work. In principle they both agree that they would. However, as yet no dates are set. The earliest would be the Autumn of 1973.

I would also give you another show in London and this might possibly be earlier but nothing is fixed. We all have the problem of transport expenses which are very expensive.

In the case of New York, we do not want to have as last time, the works left over from different exhibitions, which means they did not have the top selection. However there is plenty of time to discuss all this.

I hope you had a successful exhibition.

Yours sincerely,

Peter Gimpel
