Dear Mr. Serpa:

Reference is made to our previous correspondence and the recent meeting at the Museu de Arte Moderna in January, where we were able to admire some of your recent paintings.

I had mentioned to you before the possibility of representing your interests in the United States and Canada, and if you feel that this might be of help to you at the present time, please let me know and we could elaborate further into the program.

You may write in Portuguese if you wish. We can write to you either in English or in Spanish.

With all good wishes, I remain

Sincerely yours,

A.J. Escoruela
