Cher ami,

Further to your kind letter of 18th September I have now laid my hands on the original photograph of the work and I have marked on it the two pieces missing from the bottom left hand corner.

If this is insufficient to enable you to repair the work perhaps you can arrange with the Photo Lepin to have an enlargement of that part made from their original negative.

I also enclose a tracing of the space where the two pieces are missing which will give you the size and shape of them.

Thank you for your kind help and I am only sorry to have caused you this trouble, but I hope that by exhibiting them in the exhibition in Nottingham it was worth while.

Yours sincerely,

David Talbot Rice
