Senor Sergio de Camargo
23, Avenue Pasteur
Vanves (Seine) 92
Frankrike

Muy Senor mio,

Thank you for your letter of January 8th 1966 including your receipt for the amount of 1800 frs.

I am very sorry to hear that the amount I sent you the 14th December 1965 has not been added to your account, anyhow not to the statement you received these days from Switzerland. I have immediately called on my bank asking them to follow up the case and also giving them your account number in Société de Banque Suisse. As you may remember, you did not give the number to me when I got your bank address in Switzerland. I feel sure that your bank, when receiving your account number, will be able to place the money where it shall be.

I have also informed Mr. Gromholt and Mr. Bastiansen as to your bank address and account number.

It was really a pity that you had no chance to come to Norway this month of January. We have so heavy a snowfall as we have not had for many years, and I do feel sure that the amount of white snow, the pale-blue sky and the dark pine woods would give you inspiration in your art. Winter in Norway is, I believe, more arctic than you will find it i. e. in Switzerland or in the north of Italy and the Pyrenees.

Looking forward to meeting you next time we come to Paris. I remain,

Yours sincerely,
