Dear Mister "smeraldo,

many thanks for your very interesting catalogues.

I contacted the administration of the town of Soest to hear what could be done concerning an exhibition of your objects.

Unfortunately I have to tell you that they are not willing to plan exhibitions for foreigners' objects because of difficulties with clearing of the customs.

I sent one of your catalogues to my friend Gerlinde Beck (I gave you her adress) and asked her to contact you.

I hope you will have another exhibitions one day somewhere else in Germany and send your my best wishes for your success.
