Next week's magazine

Washington, where more power is concentrated than in any other city in the world. Where the business of a nation is conducted in a family house (above). Where hostesses still strive to recapture the days when a salon invitation was a passport to the President's ear. Where even the most humble Congressman gets a suite of offices, a gymnasium and a swimming pool provided for him. Where Negroes outnumber the whites, but where citizens are denied a choice in their own government. Where a former Russian Jew can write, print and distribute 38,000 copies of a blatantly anarchic newspaper. Where impressionable college graduates are instilled with the rigorous disciplines of the C.I.A. In next week's Magazine we look at the capital of the U.S.A. and the power that lies there

Clever people are installing SERVOWARM NOW and getting an extra radiator

MAKE THIS SHREWD INVESTMENT STRAIGHT AWAY! Servowarm 40—the new more powerful version of the famous low-cost, gas-fired central heating—brings the advantages of this brilliant system to the larger as well as the smaller home. It's the cleverness of Servowarm that cuts the cost. The Master Radiator is really a boiler and radiator in one, supplying all the other radiators in the house.

LIMITED PERIOD OFFER With every installation of a Master Radiator plus 6 or more other radiators, Servowarm offer for a limited period an extra 3ft single radiator supplied and fitted FREE! If, however, your house cannot accommodate an extra radiator you can get the benefit of a straight discount on your system instead, during the offer period. Take advantage of this opportunity now—send the coupon in without delay!

AMAZINGLY LOW COST. Servowarm 40 prices start as low as £189 (plus gas connection charge) for a basic system of Master Radiator plus 3 radiators. But whatever your house size there's a low-cost Servowarm 40 system to fit. You can repay on personal loan terms over 5 years.
