Dear Mr. Serpa:

We are preparing for UNESCO a catalog of the Unesco Art Popularization series which includes a reproduction of your painting Construction Number 75.

We should like to include, along with the illustrations, a brief biographical sketch of each of the artists represented. We should also like to include a brief statement by the artist himself concerning his aims as an artist with particular reference to the painting selected for the Unesco Art Popularization Series.

Would you be kind enough to send us a short biography and statement of one hundred words or so for use in this catalog at your earliest convenience. Upon completion, we would be pleased to send you a number of copies of the catalog for your own personal use.

Sincerely yours,

Anton Schutz
