Dear Sergio,

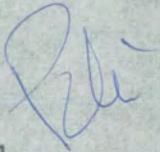

I want to draw your attention again to the very heavy storage charges that are accumulating on your work here in London. It is costing £400 a year; when you consider that these works are here since February 1974 - 7 years, it is making quite a large sum.

Have you any solution to this problem?

When you left here in June you took a letter which might help for organising a touring show under government auspices. Is there any news about this?

With best wishes from all of us,

Yours

Peter Gimpel
