Dear Camargo,

I should like to exhibit at Galleria del Naviglio
in Milan, our gallery, your sculptures, during the art-season
1966-67. I liked your show at the 33rd Biennale in Venice very
much and I should be very glad to have a one-man show of yours
in Milan where, as you know, there is the most important world
of art in Italy and where there are the more interesting magazine
of art and critics.

I am friend of Soto and you can ask him for references. I could
settle your exhibition by the Spring of 1967. I write you this
letter to your address in Paris, looking forward that it can be
forwarded to you in Brazil where I know you are in this moment.

I should like to receive an early reply of yours, so that I can
settle your show. Thanking you in advance, I am sending you our
best regards and remain

Yours sincerely

Prof. Renato Cardazzo
