Mr. F. Louis Hoover  
Ewing Museum of Nations  
International Collection of Child Art  
Normal, Illinois

Dear Mr. Hoover:

I received your letter of June 29 where you ask me to contribute with some examples of drawings and paintings by Brazilian children to the International Collection of Child Art.

I will be very glad to assist you in building this important collection and helping researchers to study the aspects of human developing, culture and behavior.

I regret that at the present time we do not have at the Museum of Modern Art of Rio de Janeiro any examples of paintings and drawings to send you, for the best works from the courses given during the first semester were sent to Japan for an exhibit; however, we will start collecting other examples, and as soon as we have around forty works I will write you again to let you know the cost of shipping of the material, and the works will be sent to you.

Sincerely yours,

Ivan Serpa
