Dear Sergio,

We have not heard about you since such a long time ... Are you still alive ... and what are we to do with the sculptures still in London ?

As a matter of fact this letter is not to talk about your sculptures but to introduce to you Steven Thomas who has been working for Martinspeed for many years so we have known him since a long time. He often came to move sculptures and collect our various shipments to and from London. He is very consciencious, careful and always good tempered.

He married a Brazilian wife and with her is moving to Brazil to try to make a living there.

His wife's family will of course help, but if it is as difficult in Brazil as in London, the more poeple you know the easier it is. You might have some ideas if he needs to pick your brains.

Do give us some of your news.

Yours sincerely,

*Catherine*
